

The Institute of Evolutionary Biology seeks a: **Laboratory Technician**

The Institute of Evolutionary Biology (IBE) is a joint Institute of the Spanish National Research Council (CSIC) and the Pompeu Fabra University (UPF) located in Barcelona city. IBE research is focused on the processes and mechanisms that generate biodiversity and on understanding the genetic basis of evolution. The IBE is a center member of Barcelona Biomedical Research Park (PRBB).

Project description

Project and Institution that finance the contract:

Fundació Barcelona Zoo

Official number reference/AE/Research Spanish Agency DOI:

CR00318- Conveni Col.laboració establiment Cryo-Zoo

Duties:

The candidate will work developing primary cell culture and iPSCs generation from samples of different animal species as well as cell characterization assays.

Candidate requisites

- Strong Tissue Culture experience for human and mammalian primary cells and iPSCs.
- Experience in iPSC differentiation.
- Experience in gene editing.
- Experience with immunofluorescence, confocal and FACS analysis for cellular characterizations

What do we offer?

1 year with possibility of extension. Salary is commensurate with qualifications and consistent with UPF pay scales

Application process

Deadline to submit applications: End of January beginning February
