

Public Tender for Scientific & technical services for the sampling of reference genomes of eukaryotic species from

1. PROPOSAL INFORMATION

PRINCIPAL INVESTIGATOR(S) OF THE PROJECT

Name, Surname, Institution, Email address, Phone number, Webpage:

Name, Surname, Institution, Email address, Phone number, Webpage:

....

PARTICIPANT(S) OF THE PROJECT

Name, Surname, Institution, Email address, Phone number, Webpage:

Name, Surname, Institution, Email address, Phone number, Webpage:

....

TITLE OF THE PROJECT (ACRONYM):

2. DESCRIPTION OF THE PROPOSAL (max. 3 pages)

2.1. Purpose and description of Bioblitz collecting campaigns and activities, including locations, and number and taxonomic groups of species to be collected (please confirm that none of the targeted species are considered by other biodiversity genomics projects, as displayed in [GOaT](#)).

2.2. Expected contribution of the project to the generation of reference genomes within the context of BGE.

3. METHODOLOGY AND WORK PLAN (max. 5 pages)

3.1. Description of the methodology.

3.3. Work plan and schedule (including a Gantt chart).

3.4. Identification of potential risks and contingency plan.

3.5. Previous experience of the team in the context of the proposal.

3.6. Human resources and equipment available for the execution of the proposal.

4. EXPECTED IMPACT OF THE RESULTS (max. 2 pages)

4.1. Expected impact of the Bioblitz activities in the context of BGE.

4.2. Social and economic impact of the activities and genomic data generated from the species collected in the future.

4.3. Plan for gender balance in the content of the proposal.

5. ESTIMATED BUDGET PER TASK AND JUSTIFICATION (no space limit)

6. CITIZEN SCIENCE ACTIVITIES (max. 2 pages)

6.1. Citizen activities planned in the context of the requested project.

6.2. Plan for engagement with stakeholders and the general public.

7. SPECIFIC CONDITIONS FOR THE EXECUTION OF THE PROJECT (IF APPLICABLE)(max. 1 page)
